

## Welcome to Pivot Placer

Pivot Placer includes:

- Pivots in the Cloud
- List of Pivots at locations
- Easily share a Pivot through email
- Analyze the ground profile
- Add Spans and Pivot Information

Working in the cloud makes life so much easier.

Forget about trying to keep track of all your pivots. Now you can easily manage them all with **Pivot Placer**.

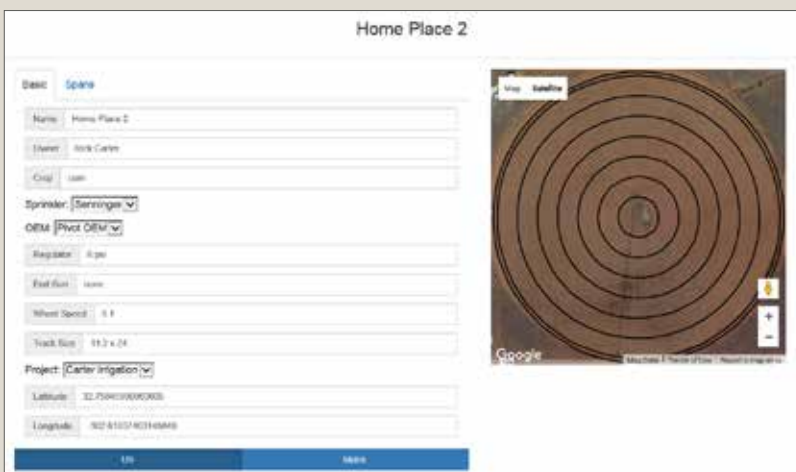

## PIVOT PLACER

By Senninger for Pivot Irrigation Dealers

### *Improve Your Customer Support*

Senninger's Pivot Placer is a cloud-based portal with easy access to information about your customers' irrigation equipment - geographical location, field characteristics, equipment manufacturer, model, and date of installation. This program can improve your business. With just a few keystrokes, you can conveniently track maintenance and service needs. Senninger's Pivot Placer is accessible from computer, tablet, or smart phone, in the office, the field or even at home.

### User Friendly

You can easily populate the database and color-code information:

- Machine placement, manufacturer, model, spans, installation date
- Elevation changes within each field
- Sprinkler manufacturer, model, installation date, warranty information
- Pressure regulator manufacturer, model, installation date, warranty information
- Flow meter manufacturer, model, installation date, warranty information
- System flow, system pressure
- Service and maintenance records
- Monitor maintenance and replacement recommendations

Senninger's **Pivot Placer** is a free program supported on Windows, Mac, Android and Linux platforms. It is designed to register unlimited contacts, growers and data. For more information, please visit [www.pivotplacer.com](http://www.pivotplacer.com). You can also ask for free technical support by calling **407-877-5655** or via email to [info@senninger.com](mailto:info@senninger.com)
